Profile

I have experience designing user-friendly and aesthetically pleasing interfaces, having worked as an intern front-end developer. I also have a deep grasp of design concepts. With my abilities and sincere enthusiasm for creating outstanding user experiences.

Projects

Study exam mart: It's an app which streamlines the buying, selling, and donating of used items among students at reasonable prices. Demo

Goodreads: Revamped the outdated Goodreads website, giving it a modern, user-friendly design. Demo

Venugram: Designed and developed web pages with HTML, CSS, JS, Bootstrap4 as per requirements of client. Demo

Concert ticket booking: This is my university project in retrieval of data(DBMS). It's an online ticket reservation system for concerts.

Internship
